

AFTER-WAR PROBLEMS TO BE CONSIDERED

By Demobilization Conference Which Meets Here Tuesday—Names Wanted For Warriors' Banquet

The Demobilization Conference to consider After-War Problems promises to be a meeting of great importance to the people of Richmond and Madison county. The Conference will begin on Tuesday evening at 7:30 o'clock at the Presbyterian church. The day sessions on Wednesday will be held in the Baptist church and closing session on Wednesday evening at the Christian church.

The program is being arranged and will soon be ready for publication. Dr. Frank L. McVery, president of the University of Kentucky, will be one of the speakers. Hon. H. V. McChesney will also speak, and Mr. L. J. Darter, who has just returned from France, will also make some addresses during the conference. Effort is also being made to secure Dr. A. Paul Bagby, of Louisville, as one of the speakers. Dr. Bagby made such a fine impression by his addresses in this city recently, that a special request has been made to have him return.

In this conference various subjects will be discussed relative to community life. Everyone interested in the welfare of the community should plan to be present at all the sessions of this conference. The conference is being held under the auspices of the Church Community Welfare League, recently organized in this city.

Banquet To The Soldiers.
It is the plan of the committee on arrangements to give a banquet to Madison's returned soldiers and sailors on the evening of April 8th at six o'clock. Request has been made that all returned soldiers and sailors and their relatives and friends aid the committee in securing the names of all who have returned so that the committee may know how to plan. So far comparatively few names have been given to Mrs. J. R. Pates who was appointed to secure these names. There is absolutely no other way of finding out the names of Madison's returned boys except through them and their friends. Unless a sufficient number of names are given in to Mrs. J. R. Pates, Richmond, by next Monday noon, the idea of the banquet may have to be abandoned. An immediate response will be appreciated.

Respectfully,
O. O. GREEN,
Chairman Com. on Arrangements.

In the Rhine provinces on the left bank of the Rhine, it was stipulated the Germans should have political and autonomy but not be permitted to establish fortifications, occupy the territory with an armed force or control the railways. Thus the Rhine would serve France as a natural frontier.

In each case a division will be recruited from the district surrounding the camp named as its base. In making this announcement, General March said the War Department is proceeding with the organization of the army on a basis of a peace strength of 509,000 men. The tactical organization will comprise five army corps of 20 infantry and one cavalry division, the latter being the rainbow which will be organized in the Southern Department, the men to be drawn from all states, thus preserving its all-American character.

No Change In U. S. Demobilization Plans

(By Associated Press)
Washington, March 29—Recent events in Hungary, General March announced today, have resulted in no change in the military policy of the United States as far as the War Department has been advised. The return of troops from France is proceeding even faster than originally scheduled and nothing has occurred to interfere with this movement, the aggregate for March being 244,000.

The demobilization total has now passed the million and a half mark. Gen. March said. He also announced that he had ordered soldiers discharged within 48 hours after their arrival at demobilization camps unless special conditions made it impossible.

Middle West Favors It

(By Associated Press)
Washington, March 29—Senator Hitchcock, former democratic chairman of the Senate Foreign Relations Committee, in a statement today declared the belief that important changes will be made in the covenant of the League of Nations by the committee having it in charge at Paris and that the Senate would ratify the treaty even though it contained no provision specifically exempting the Monroe Doctrine. His statement was made upon his return from a speaking trip to the middle west where, he said, indications pointed to an increasing sentiment favorable to the League.

Invented This Too Late

Worcester, Mass., March 29—Propelled by a perfected gas engine, the power for which is generated from cartridges fed into it by clock-work device, Dr. Robert Gabbard, professor of physics, at Clark College, has invented a new rocket reported to be a terrible engine of war. It has an altitude range of 70 miles with a distance range of 200 miles. The weapon's feature is in the head, containing either high explosives or gas. The signing of the armistice prevented it being put into use.

EXEMPTION BOARD WINDS UP ITS WORK

Records All Boxed and Sent To War Department—Members Finish a Patriotic Duty.

Twenty-five heavy wooden boxes, nailed tightly are going by freight today from Richmond to Washington, carrying the complete records of the Madison County Exemption Board. Its work finished, the local board has completed its records as required by the regulations, and is sending them in to the War Department, where they will be filed away with the records of all other draft boards.

Just about the time the board had everything ready to send in, orders came for a complete change in the arrangement, and Secretary C. B. Terrill had to put in several days hard work, assisted by Clay Shackelford and Chairman R. B. Terrill, of the board, in making the required changes.

There isn't a board in the state that has done more faithful and conscientious work than the three men who had charge of this work in Madison, together with their efficient secretary, Messrs. R. B. Terrill, Van Benton and Dr. J. G. Bosley did a patriotic and unselfish work for their country. They did their duty, without fear or favor, and at a great personal loss of time and money to themselves.

An editorial in the Harrodsburg Herald the other day applies with full force and effect to the members of the Madison county board. It said:

One special class of our citizens has done patriotic duty of the highest importance. They have not had much publicity nor have they received very much praise. We understand that they are now to be disbanded in their official capacity, and we feel that a word of appreciation is due them. We refer to our exemption board. Their service has been a difficult one, calling for quick discrimination and excellent judgment. Many of the men appointed have carried out the work at a sacrifice to their own private interests. They have had to deal with men of every kind, rich and poor—the patriot, the slacker, the conscientious objector. Yet how little criticism of them there has been—how few accusations of unfairness! The overwhelming majority of these men have performed their duty with strict honesty, great fairness and infinite patience and kindness. Many young men are grateful to the members of their exemption board for fatherly interest and kind advice. The influence of the boards has been strongly for good. The nation owes a debt of gratitude to these real and unostentatious patriots.

COME ON

Everybody came at the same time last week and our first car of Seed
Potatoes, our third car of Seed Oats, our stock of Grass Seeds, etc., went faster
than we could haul them. Sorry we had to disappoint some by not being able to
deliver when they wanted them, but our new supply is coming in every day and
by the time you read this, we will be able to fill your order.

REMEMBER WE GUARANTEE DELIVERY IF YOU BUY.

Pay no attention to what people tell you about our goods unless they
have seen them; then be sure and ask 'em all the questions you can think of. A
great many of our new customers come with suspicion because they have been told
by some who haven't seen themselves, that it can't be done; that the quality is not
there or something is wrong. It is pleasing to us, for when they see themselves, it
makes a stronger impression. They come in undecided and only half believing.
They go out satisfied, enthusiastic and with a big smile.

Friends, it's no trap. It is real, genuine, and best of all, permanent, go-
ing right on; not this week and next, but on and on. Here is the secret: We buy
in bigger quantities, sell a car load while the ordinary store sells a wagon load;
quick turnover and small profit. We both make money when you trade at
Welch's. QUALITY is our MIDDLE NAME. Come on. We pay the freight.

Seed Potatoes (best) only	\$1.25 bushel
Wheat Shorts only	\$2.85
Best Patent Flour (Dolly Varden)	\$1.45
Tuxedo Chop only	\$3.00
Tobacco Canvas (new supply now in)	8c
4-ft Fence only	45c and 55c
Best granulated sugar (per 100 pounds) only	\$10.50

COMING THIS WEEK—1,000 bushels of Seed Potatoes, 3,000 rods of
Fence, 1,500 bushels of Seed Oats, 50 bushels of Clover Seed, 100 bushels of Blue
Grass, 400 bags Shorts and 1,680 bags of Dolly Varden.

ARRIVED TODAY—Grass Seeds (all kinds), Tobacco Canvas and
Shorts, Seed Oats and Seed Potatoes

We can save you money on your Farm Tools, your Harness; in fact, on
any thing you want, besides giving you the choice from the largest assortment in
Madison county. LOOK OUT for our prices on COW PEAS, CANE SEED and

GLAD TO TESTIFY

Says Watoga Lady, "As To What
Cardui Has Done For Me, So
As To Help Others."

Watoga, W. Va.—Mrs. S. W. Gladwell,
of this town, says: "When about 15 years
of age, I suffered greatly . . . Sometimes
would go a month or two, and I had
terrible headache, backache, and bearing-
down pains, and would just drag and
had no appetite. Then . . . it would last
two weeks, and was so weakening,
and my health was awful.

My mother bought me a bottle of
Cardui, and I began to improve after
taking the first bottle, so kept it up till I
took three . . . I gained, and was well
and strong, and I owe it all to Cardui.

I am married now and have 3 children
Have never had to have a doctor for
female trouble, and just resort to Cardui
I need a tonic. I am glad to testify to
what it has done for me, so as to help
others."

If you are nervous or weak, have head-
aches, backaches, or any of the other
ailments so common to women, why not
give Cardui a trial? Recommended by
many physicians. In use over 40 years.

Begin taking Cardui today. It may
be the very medicine you need.

Fordson Farm Tractor

We are agents for Fayette, Madison and Jessamine
counties, and will make deliveries to your farm. The
Farm Tractor has become an agricultural necessity, in
view of the uncertainty and high cost of labor. The
present high prices of all farm products, and the abso-
lute necessity of food for the world, puts the question
of intensive and extensive cultivation by all progressive
farmers, that they may make hay while the sun shines.
The Farm Tractor is the most economical and the
quickest of all means of cultivation.

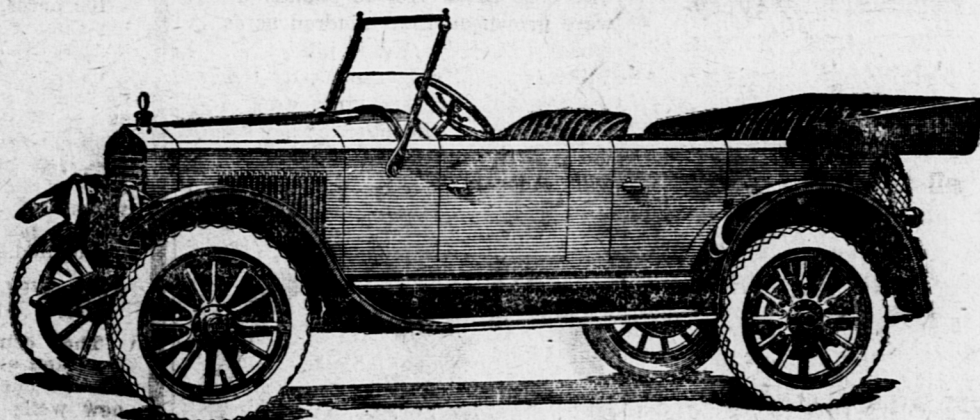

The Fordson Weighs 2800 lbs.

It is light and powerful, it has a development of 22
horse power at the belt pulley, a draw bar pull of 1800
pounds dead weight in second speed, and 2,500 in low
speed, it has three speeds forward, draws two 14-inch
mold board plows at the rate of four miles per hour,
and can be turned in a space of ten feet. With the
pulley attachment it can be utilized as a stationary en-
gine, uses coal oil as fuel. The price of this Tractor is
\$965.00 including belt pulley. We carry all repair
parts and can keep your Tractor at work all of the
time. Let us show you this farm necessity and demon-
strate its essentiality to your needs.

We Want You to Ride

Thousands Praise this New Car

In the Essex

The Essex is being advertised by what people say who have tried
it—not by what we claimed. That is why we ask you to ride in
the Essex and see for yourself what this car will do.

The qualities in the Essex which
appeal most are those very qualities
that are most attractive in the light,
cheap car and those of the large, cost-
ly one. They are comfort, riding
ease, endurance, and elegance at a
moderate cost for purchase and oper-
ation.

Ask any motorist what he thinks
about the Essex. His answer is sure to
be more enthusiastic than anything
we have said. We have tempered
all our claims. We knew how strong-
ly the Essex would speak for itself.

Every Essex Sales Room Now
Holds Motordom's Interest

Essex popularity is
not limited to any one
city or locality.

People instantly ad-
mire its beauty. They
speak of the detail and
care with which it is
finished. They note its
lines and talk of fea-
tures they have never
seen on any but costly
cars. Such are their
observations.

RICHMOND MOTOR COMPANY, Inc.

Temporary office at Madison Garage
PHONE 150

But their real enthusiasm comes
when they return from a test ride.
They are not prepared for such easy
riding qualities over rough cobb-
lestone streets and worn-out pave-
ments. The Essex does not pitch its
passengers about. It remains rigid
and firm and free from rattles and
squeaks no matter how rough the
service.

The Essex is demonstrated on the
boggy hills used to prove climbing
ability by high-powered and costly
cars. Speed is shown over the same
course that fast cars
are demonstrated. Pas-
sengers are told to hold
their watches on the
speedometer to note the
quickness of Essex ac-
celeration.

These are things you
will observe when you
ride in the Essex. We
will arrange for a driving
appointment at your
convenience if you will
let us know.

SOME HEMP IN BOYLE

The biggest crop of hemp in Kentucky has been broken and is now ready for the market. It was the crop of Banks Hudson and James House. The crop made 415,000 pounds which were grown on four hundred acres of land on the Blue Grass pike. E. I. Dillehay and Mr. House superintended the great job of breaking this immense crop of the fibre. They handled it with pronounced success.—Danville Advocate.
